Disclaimer

Banco de Bogotá is an issuer of securities in Colombia and, as such, it is required to comply with periodic reporting requirements and corporate governance practices. As a financial institution, the Bank is subject to inspection and surveillance from Colombia's Superintendency of Finance.

The financial information included in this report was prepared with unaudited consolidated financial information, in accordance with IFRS as currently issued by the IASB. Details of the calculations of Non GAAP measures such as ROAA and ROAE, among others, are explained when required in this report.

Banco de Bogotá executed a spin-off of a 75% equity stake in BAC Holding International, Corp ("BHI") to its shareholders on March 25, 2022. Prior to the spin-off, Banco de Bogotá was the direct parent of BHI. The Bank has retained a direct stake of 25% in BHI. This interest in BHI is reported as discontinued operations for reporting periods prior to the spin-off and will be reported under the "share of profit of equity accounted investees, net of tax (equity method)" line item for subsequent periods. Furthermore, on July 28, 2021, Banco de Bogotá ceded control of Fondo de Pensiones y Cesantías Porvenir (Porvenir) to Grupo Aval, while retaining an unchanged 46.9% equity interest in the company. Consequently, Porvenir results were deconsolidated from Banco de Bogotá's financial statements starting on the results reported for the three months ended September 30, 2021; from this date onwards Banco de Bogotá's stake in Porvenir is reflected as an "Investment in associates and joint ventures", while its results are reported under "share of profit of equity accounted investees, net of tax (equity method)".

As a result, for comparability purposes, we have prepared and present supplemental unaudited pro forma financial information for the three months ended June 30, 2021 that assumes the deconsolidation of Porvenir and BHI's spin off was completed on April 1, 2021. The supplemental unaudited pro forma financial information does not purport to be indicative of our results of operations or financial position had the relevant transactions occurred on the dates assumed and does not project our results of operations or financial position for any future period or date. The pro forma financial information is unaudited and the completion of the external audit for the year ended December 31, 2022, may result in adjustments to the unaudited pro forma financial information presented herein; any such adjustments may be material. For further information, please see the supplemental unaudited pro forma financial information in our Q2-2022 earnings release.

The Colombian peso/dollar end-of-period annual and quarterly devaluation as of June 30, 2022 were 10.7% and 10.5%, respectively. In this report, calculations of growth, excluding the exchange rate movement of the Colombian Peso, use the exchange rate as of June 30, 2022 (COP 4,151.21).
